

SPRING into

INNOVATION

PICKERING WILLIAMS & MAGEE
ONLINE

Stop worrying about your identity and concern yourself with the people you care about, ideas that matter to you, beliefs you can stand by, tickets you can run on. Intelligent humans make those choices with their brain and hearts and they make them alone. The world does not deliver meaning to you. You have to make it meaningful...and decide what you want and need and must do.

FICTION

VERSUS

NON-FICTION

Fictional literature is made from the imagination.

The income tax is a big-government Democratic scheme.

Taxes became less progressive because of the Bush and Reagan tax cuts.

Non-Fiction is literature that is based on fact.

The federal tax code was 400 pages in 1913. In 2010 it was 70,000 pages.

The United States has what is called a progressive tax system, which means that the more money a person makes, the more he or she pays in income tax.
